

**“Live the Story Now” - Prefigurative Practices**  
Brainstorm & prototype to match story with action

*Prefigurative Practices* = Actions that embody and enact our stated story, values, beliefs.

**Brainstorm Activity:** Brainstorm some prefigurative practices for one of your core stories / stories for the future from previous activities. *E.g. if core story is “we value connection and community,” brainstorm several practices or actions you could add or change in your team’s interaction and infrastructure to better embody and reflect this story.*

**Prefigurative Role Model Research:** What best practices can you find in your industry (or beyond!) for modeling and enacting this particular story or value? What are companies, organizations and teams you admire doing?

**Group Shareback:** Share ideas from both activities above. As a group, choose 3-5 practices to prototype. Use the next worksheet to move into prototyping.
