

Resource: A Forwards-Design Cycle Model

[Image Description: Black handwritten text on a white background shows four titles of steps in the forwards design cycle, connected by arrows pointing in the same direction so that all four steps create a circle. Starting from the top and going counterclockwise, the steps read: Accept Feedback (Observe), Assess Needs (Assess), Generate Strategies (Plan), Implement Strategies (Do). Simple hand-drawn leaves decorate each corner of the page.] Image copyright Rachel Economy 2021.
